About me

I'm a passionate developer and have been working on web development in the last decade.

I have a graduate (and post-graduate) background and have experience with most actual technologies such React, NodeJS, and Module Federation, working for one of the biggest company from Europe.

With strong soft skills, I have achieved great results as a team leader, applying agile techniques such as scrum, code review, and TDD.

Fun fact #1:

This page has scored 100% on Google Lighthouse.

Fun fact #2:

The PDF version of this page is the same as the print version.

Fun fact #3:

This CV was generated with React but there's no Javascript after build 🤖.

Experience

Senior Software Developer

Namebase

Remote

Sep 2022 - Present

Namebase is a company that provides a platform for buying and selling Handshake domains. I work on the frontend of the company's website, mainly in React (Typescript) and Rest/GraphQL. I also work on the backend, mainly in NodeJS. Here I also had the opportunity to work with NextJS and Vercel.

Senior Frontend Developer

Adevinta

Spain

Feb 2020 - Feb 2023

With many websites across the world, Adevinta is one of the biggest companies focused on dedicated marketplaces. I work on the frontend of the company's back office, mainly in React (Typescript) and Rest/GraphQL. I also work on the backend, mainly in NodeJS. Here I had the opportunity to work with Module Federation and MonoRepo to make the company's codebase more modular and reusable.

Javascript Developer

eDreams Odigeo Spain

Jun 2017 - Feb 2020

eDreams is a travel agency focused on the travel industry. I worked on the frontend of the company's website, mainly in Backbone, transitioning to React. Strong attention to details when following the UX designers' mock-ups. I also gained a lot of knowledge related to A/B testing.

Development Analyst

Mobile-DI Remote

2015 - Mar 2018

Mobile-DI is a software company that provides software development services to enterprises and governments. I worked as an analyst at Mobile-DI, where I designed and help to implement the solution for each client. I also lead a team of frontend developers, remotely. I worked on a variety of projects, most of them Angular and AngularJS.

Frontend Developer

MATERA Systems Brazil

Nov 2014 - Jun 2017

MATERA Systems is a software company that provides software development services for the banking sector. I worked mainly in a remote team, where I code the frontend following the mock-ups provided by the UX designers.

Education

Object Oriented Development in Java

UniCesumar Brazil

2012 - 2013*

Analysis and Software Development

UNIPAR Brazil

2007 - 2009
